

2024 QS World University Rankings: Asia

University of Calicut

THE DATA CONTAINED HEREIN IS RELEASED UNDER EMBARGO AND MAY NOT BE RE-PUBLISHED OR REFERENCED WHOLE UNTIL 8TH NOVEMBER, 10:00 GMT

Welcome

University of Calicut India

The 2024 QS World University Rankings: Asia will be published on [topuniversities.com](https://www.topuniversities.com) on 8th November 2023.

This file provides the detailed results for your institution and the data that has been used to calculate the ranks and scores.

It should also provide you with useful information for any media communication you might need to prepare prior to launch.

For further information please visit: <https://www.topuniversities.com>

Institution Classification

QS Classifications make it easier to quickly identify and compare institutions with similar characteristics. To find out more about how the classifications are compiled, please visit: <https://support.qs.com/hc/en-gb/articles/360021876820>

SIZE	Very Large	Large	Medium	Small
STATUS	Public	Private not for Profit	Private for Profit	
RESEARCH INTENSITY	Very High	High	Moderate	Low
SUBJECT AREA FOCUS	Fully Comprehensive	Comprehensive	Focused	Specialist

Methodology

	Academic Reputation	Taken from the annual QS Academic Reputation survey, designed to evaluate the perceptions of global academics on which institutions are demonstrating academic excellence. Learn more on: https://support.qs.com/hc/en-gb/articles/4405952675346	30.0%
Research and Discovery	Citations per Paper	This ratio measures the average number of citations obtained per publication, and is a proxy of the impact and quality of the scientific work done by universities. Underlying data of papers and citations is indexed by Scopus. The paper and citation counts are normalized in an attempt to equalize their influence across the five broad faculty areas.	10.0%
	Papers per Faculty	This indicator seeks to determine the average number of scientific publications (papers) produced per faculty and evaluates the productivity of research institutions. Data is extracted from Scopus. Indexed papers over a period of five years are used. The paper count is normalized, ensuring that papers published in each of the five broad faculty areas are weighted equally.	5.0%
Employability and Outcomes	Employer Reputation	Taken from the annual QS Employer Reputation survey, designed to evaluate the perceptions of global employers on which institutions are providing the most job-ready graduates. More information: https://support.qs.com/hc/en-gb/articles/4407794203410	20.0%
Learning Experience	Faculty Student Ratio	This is the ratio between the number of academic staff and number of students. A higher number of academics per student reflects the resource commitment of the institution to its teaching and learning mission. More information: https://support.qs.com/hc/en-gb/articles/360019108240	10.0%
	Staff with PhD	This indicator attempts to assess the quality of training of the academic staff, detecting the proportion of them that have reached the highest level of education in their area of expertise. This is an indirect measure of the commitment of universities to high-quality teaching and research.	5.0%
Global Engagement	International Research Network	This indicator assesses the richness of the international research partners institutions. Collaborative research has benefits not only in terms of overall research quality and transparency, but in helping to solve global problems across borders. More information: https://support.qs.com/hc/en-gb/articles/360021865579	10.0%
	Inbound Exchange Students	This indicator assesses the proportion of students registered at a foreign university that attend each institution on international exchange programs for at least one semester during the annual reporting period.	2.5%
	International Faculty	The International Faculty Ratio is the proportion of faculty members who are international. It is a proxy measure for how internationally attractive the university is to academic staff, and a sign that through their reputation and quality they are able to attract those staff. More information: https://support.qs.com/hc/en-gb/articles/4403961809554	2.5%
	International Students	The International Students Ratio is the proportion of students who are international. It is a proxy measure for how internationally attractive the university is to students, as well as the on-campus diversity that those students will benefit from. More information: https://support.qs.com/hc/en-gb/articles/4403961727506	2.5%
	Outbound Exchange Students	This indicator assesses the proportion of students registered at each university that attend a foreign university on an international exchange program for at least one semester during the annual reporting period.	2.5%

Showing published rank

Percentage of institutions surpassed in terms of rank

Rank by Indicator

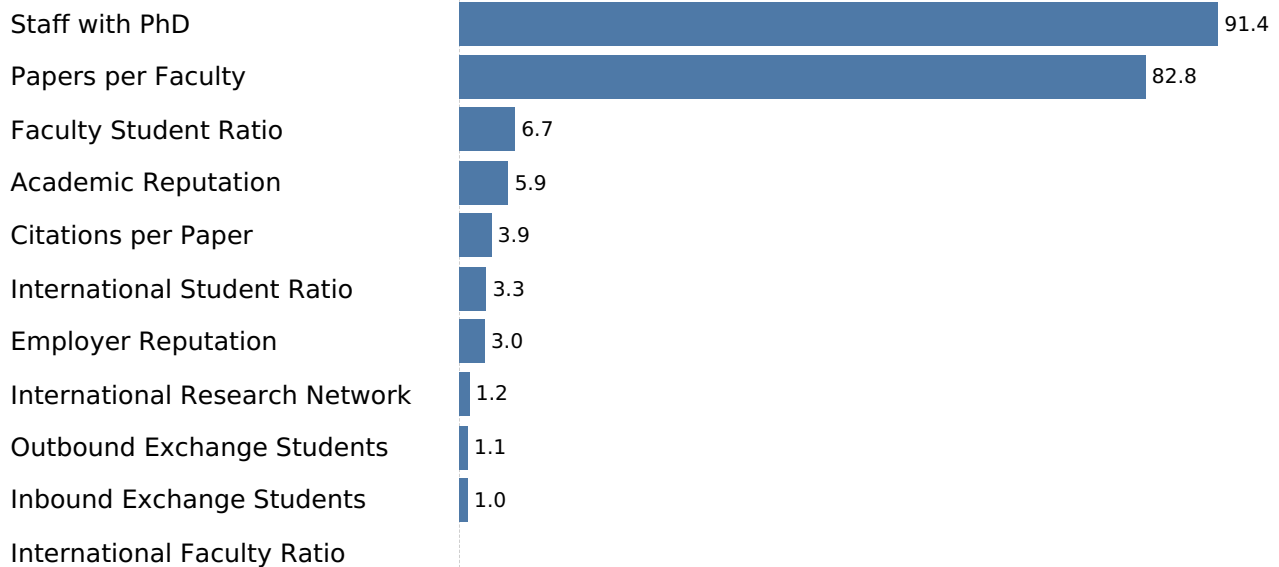

Scores by Indicator

Overall Score
13.9

The top-performing institution overall is awarded a perfect score of 100. For every other institution, the sum of its scores for each indicator is taken and scaled against that top-performing university as a standardised point of reference.

Indicator Scores (1-100)

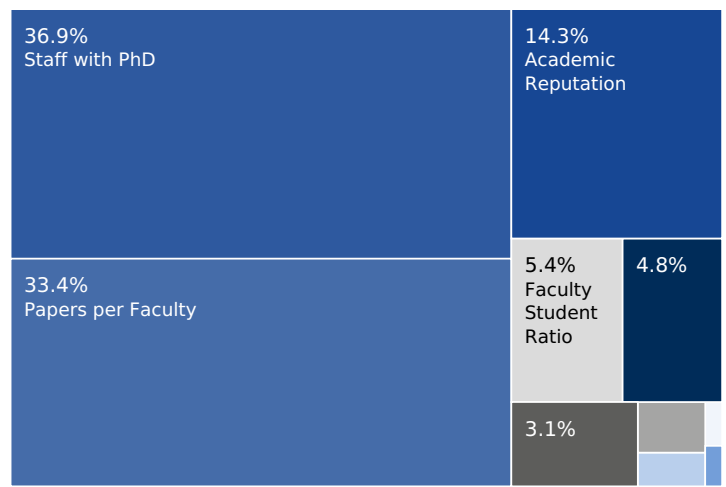

Note on International Research Network scoring. Last year we published this indicator unweighted, the intent being to give a rough estimation of how an institution would fare. We did not apply our standard and full normalization procedures to the scores. This year we have reconciled the normalization in line with our other indicators. Institutions should thus compare rank positions and not scores for this indicator and for this year. Further details here. <https://support.qs.com/hc/en-gb/articles/4402503754130-Z-Score-Normalization>

Indicator Weighted Scores Based on methodology

Staff with PhD	4.6
Papers per Faculty	4.1
Academic Reputation	1.8
Faculty Student Ratio	0.7
Employer Reputation	0.6
Citations per Paper	0.4
International Research Network	0.1
International Student Ratio	0.1
Outbound Exchange Students	0.0
Inbound Exchange Students	0.0

Indicator Rank among Institutions in India

In the above chart the number of lines displayed for each indicator may be less than the total number of evaluated institutions for your country/location. This is because some institutions may have equal ranks.

Underlying Data

This is the underlying data used for the rankings calculations. You will have verified this data during our underlying data check stage. Variations may be a result of validation by our team. If you have further queries, please submit a ticket at <https://support.qs.com>

Bibliometric data

Scopus[®]

Students	2,394
International Students	22
Faculty	130
Staff With PhD	119
International Faculty	
Citations (Normalized)	15,141
Citations (Excluding Self Citations)	11,501
Citations (Including Self Citations)	14,449
Papers (Normalized)	2,291
Papers	1,984
Inbound Exchange Students	
Outbound Exchange Students	

Observations:

Students and faculty figures above are full-time equivalent (FTE). In those cases where only the headcounts were available, the FTE was calculated by applying a ratio based on location or regional average. When a breakdown by undergraduate and postgraduate was available we used the sum total.

Scopus numbers extracted in February 2023 - variation with their live database is to be expected.

Papers period: 2017-2021

Citations period: 2017-2022

Underlying Data and Indices

The following charts present the ratios and indices utilised for rankings calculations for your institution, compared against the global median results.

Subject Area Focus: Underlying Data Sheet

Blue denotes that your institution offers an undergraduate or taught postgraduate degree programme in that specific narrow subject area. If more than one subject area is covered, the corresponding broad faculty area is marked with **blue**. This information is critical for the eligibility criteria in QS World University Rankings, QS Rankings by Region and QS Rankings by Subjects. Papers and Citations by Subject Area

The following graphs provide the institution's breakdown of papers and citations by broad subject area indexed by Scopus and used in the 2024 edition of the rankings. QS considers six years of citations (2017-2022) for each of the five publication years (2017-2021).

The regional rankings methodology employs the Citations per Paper and Paper per Faculty indicators and, thus, this approach seeks to derive normalized total citation and paper counts. The objective of this process is to equalise the influence of the five broad subject areas considered. For a technical explanation of the normalization method, please refer to this link: <https://support.qs.com/hc/en-gb/articles/360019107580>

Boost your brand and global outreach in 2024

Stand out on the global stage

In today's competitive higher education landscape, your institution needs to shine brighter than ever.

Join thousands of academic leaders, who've propelled their institutions to new heights with QS global and regional summits.

Drawing on over 30 years of expertise in higher education insights, analytics and services, QS conferences offer unparalleled opportunities for reputation building.

Think Bigger. Reach Further.

QS conferences bring together the top minds in higher education – from university leaders and sector experts to government representatives – to explore the future of higher education. Network, exchange groundbreaking ideas and gain actionable insights to advance your institution.

Three benefits of attending QS conferences:

Audience profile

47% Leadership

38% Strategy and Planning

12% International Office

3% Admissions and Marketing

Showcase your brand to QS's network of higher education leaders, with 3,168 attendees from 113 countries

Form international partnerships with other top institutions from around the world

Demonstrate your institution's thought leadership while gaining fresh ideas and perspectives

New Year special offers

- Book any physical conference sponsorship and receive a free virtual booth to connect with hybrid attendees. The virtual booth is accessible to attendees for 30 days after the conference.
- Book your sponsorship for two or more QS conferences before 31 December 2023, and unlock our exclusive QS custom matching service. This includes five one-to-one meetings before, during and after the conference.

Ready to showcase your university to the world?
Request your free consultation now.

Unlock your institution's global potential

Demonstrate your thought leadership to more than 70,000 sector professionals

Your institution is home to remarkable people, doing innovative work and driving meaningful change. It's time to give them the global spotlight they deserve.

Set your university apart in a competitive market and maximise your international reach through tailored advertising campaigns in QS Insights Magazine and the QS World University Rankings Yearbook.

At QS, we've lead the way in higher education insights for over 30 years, working with top universities around the world. Our team's expertise ensures your message reaches and resonates with the audiences that matter most.

Three major benefits of showcasing your brand in QS publications:

Digital reach: Connect with an audience of 70k+ higher education professionals

Print power: Reach 2,000+ academic leaders with each print edition

Online impact: The QS Yearbook generates up to 95k pageviews per year

New Year exclusive offer

Secure a discounted rate when you buy the bundle: a one-page advert in the QS Yearbook and one-page adverts across 12 editions of QS Insights Magazine, both print and digital.

Offer available until 31 December 2023.
